

Modularly Designed Engineered Systems

Industries Served:

POWER GENERATION

CHEMICAL/PETROCHEMICAL

OIL REFINING

OIL & GAS PRODUCTION

PIPE LINE OPERATIONS

PHARMACEUTICALS

Equipment and Systems Offered:

Specialty Heating Systems

Electric Process Heaters

Fuel Gas Conditioning

Hot Oil Systems

Modular Pilot Plants

Chemical Processing Skids

Waste Heat Recovery

Pressure Swing Absorption

Two & Three Phase Separators

Glycol Dehydration Packages

Sulfur Recovery Systems

Pipe/Valve Skids

Gas & Liquid Meter Skids

Launchers/ Receivers

Chemical Injection Skids

Piping Manifolds

Racked Piping Modules

ASME Code Pressure Vessels

Instrument Control Panels

Engineering and Design:

Manufacturing Standards:

Mechanical

ASME Section VIII, div.2

Thermal

API

Process

ANSI

Electrical

NEC

Instrumentation

TEMA

Piping
